

CORETEX Lightweight Panel Range

Got a weight problem? Lighten Up! with Coretex Lightweight Panels

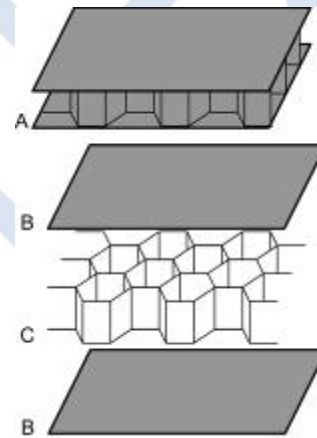

The CORETEX Group provides one of the UK's widest ranges of Made to Measure lightweight structural panels for many industrial applications – and Made in the UK.

Panels are manufactured from a wide range of outer skins and inner core options. Simply check with us on the application and we can guide you on the best combinations to suit your needs.

We can make 10 off's or 1000's.

Lightweight Sandwich Panels

Sandwich panels (**A**) are made, as the term suggests, from a sandwich of a high strength skin material (**B**) that is bonded with a suitable adhesive to a lightweight structural core material (**C**). Many skin and core types are available to achieve the required weight, budget, strength and environmental performance. Speak to Coretex who can advise you – a typical list of options is provide below.

Outer Skin Options

- Aluminium (Primed/Painted)
- MDF / Plywood
- HPL (High Pressure Laminate /Formica)
- GRP (Glass Reinforced Polyester)
- Steel (Galvanized/Painted)
- PVC / ABS / PP
- Carbon Fibre

Inner Core Options

- Expanded Polystyrene (EPS)
- Extruded Polystyrene (XPS)
- PP (Polypropylene) Honeycomb
- Aluminium Honeycomb
- Paper Honeycomb

Typical Size*

- 1220mm x 2440mm, 1250mm x 2500mm, 1500mm x 3000mm, 3000mm x 12200mm
(*Depending on skin material sizes)

Typical Thickness

- 5mm to 100mm. Other sizes on request

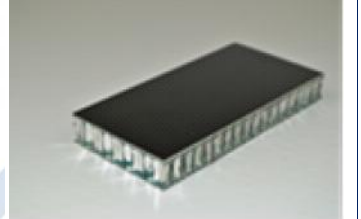

Extra Services

- Timber/ MDF / PU / Aluminium Edging & Frames
- Inserts / Fixing Points
- CNC Routing / Machining / Drilling
- Sheet Metal Fabrication

Typical Applications

- Lightweight Architectural Façade Panels
- Lightweight Transport/ Truck Body Panels
- Lightweight Bespoke Furniture/Joinery
- Lightweight Marine/Wet Panels
- Lightweight Engineering /Industrial Panels
- Lightweight Composite Panels
- Lightweight Stone/Marble Panels
- Lightweight Stage/Theatre Panels
- Lightweight Walls/Floors/Ceiling Panels
